MEMORANDUM FOR THE RECORD

SUBJECT: Tactical-National Intelligence Interface Study

1. Per telecon today with Jerry Dyer, J-5 Action Officer:

a. He is about to float his sixth Flimsy on the subject. He has high confidence that this one will fly and that he can go Buff in about a week. (Recall, he had the same expectation with the fourth and fifth Flimsys.)

b. As it stands now, the proposed response to the DCI will not contain recommendations for mutual support. It will contain an abbreviated inventory of non-CDIP assets and their tasks described in terms of CIRIS subjects and geography. The DCI will be requested to compare these data with the national programs as a basis for further study. (The JCS will rely on R&A/MPRRG to manipulate their non-CDIP data for them.)
